From Dr. Jeremiah Arkham, Chair of Staff  
To All Department Heads  
Regarding: The recent experiments

The study's continued positive results with Carolin  
Ch surprised that her reactions represented her in-  
ner desires. Perhaps you're disappointed that this  
happened on our watch.

While these feelings are understandable, they are  
not acceptable. An incident was keeping our system  
disorganized along with the ability to process the  
reactions.
